GOVERNANCE

WHAT WE DO

Our Programs: RSPN's work revolves around six focus conservation areas: (1) Species and habitats (2) Wetlands and freshwater (3) Climate change adaptation and resilience (4) Waste and pollution (5) Sustainable livelihoods (6) Environmental education.

The mandala represents our systemic approach and efforts, geared to implement sustainable solutions to emerging environmental challenges through, innovation, citizen engagement, education, and empowerment. The six thematic areas are initiated based on national and international priorities that are aligned to address the Sustainable Development Goals (SDGs).

Using this approach, it affirms our belief and commitment to addressing the global issues which are interdependent in nature to support our goal of an 'Environmentally Sustainable Society'.
